

# WomanTech Connect

Empowering women in South Africa's tech sector through innovative, **verifiable mentorship solutions** to bridge the gender gap.

# Vision

Empowering women in SA tech  
through **mentorship and transparency**.

O1

Our app aims to **bridge the gender gap** in the tech industry.

O2

By providing **verifiable mentorship**, we ensure trust and credibility.

O3

This decentralized approach fosters a supportive and inclusive **tech community**.

# Problem

Tackling systemic issues affecting women in SA tech.

01

Women face **significant barriers** in the tech industry, leading to underrepresentation.

02

The persistent **pay gap** further exacerbates inequality in access and opportunity.

03

A lack of unbiased mentorship limits women's potential and career progression.

# Solution

Building trust and reputation through innovative technologies.

01

**Verifiable credentials** establish authenticity, ensuring mentors are qualified to guide.

02

**Blockchain technology** enhances transparency, providing secure records of mentorship.

03

**Objective matching** connects users based on skills, fostering meaningful relationships.

# Target Audience

Engaging various stakeholders to **create a supportive ecosystem** for women in tech.

01

Aspiring and junior women will find **mentorship opportunities** tailored to their needs.

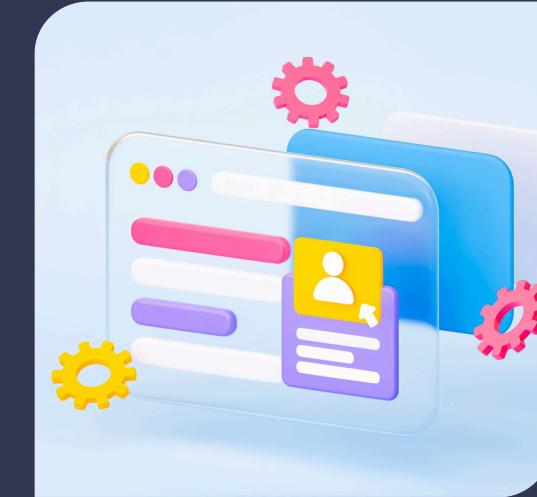

02

Experienced mentors can contribute their expertise while **guiding the next generation** of female leaders.

03

Tech companies and educational institutions play a crucial role in **fostering diversity** in the tech industry.

## Key Features Overview

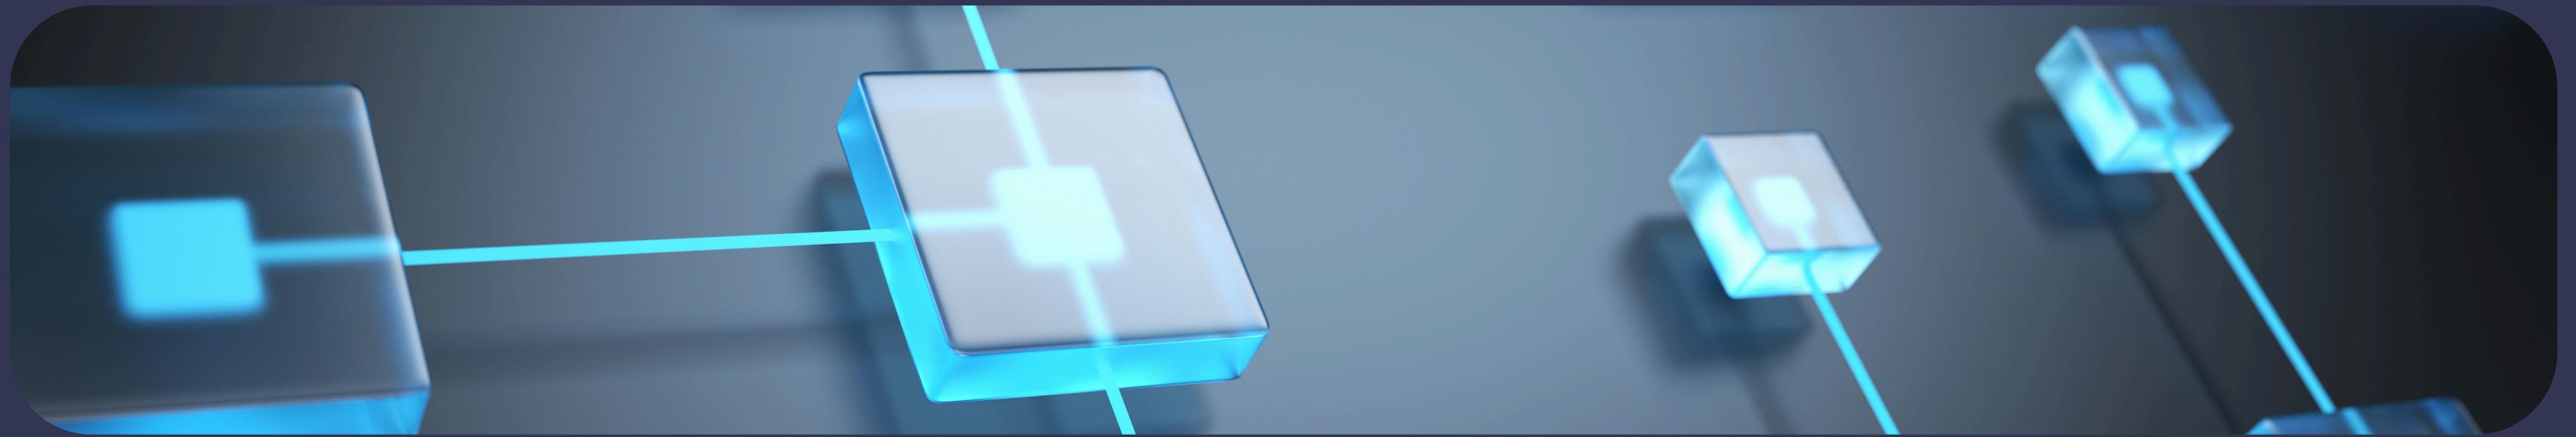

**Easy Onboarding**  
Quick user sign-up

Verification**  
Confirm mentorship  
authenticity

**Discover Mentors**  
Connect with experts

# Technology Stack Overview

Leveraging cutting-edge technologies to empower women in SA tech

Our platform utilizes **React.js** for a responsive interface, **Solidity** for smart contracts, and **BlockDAG** for efficient data management, ensuring a secure and scalable mentorship experience.

**"Bias mitigation is essential for true equality in tech."**

**– Emily Carter**

**"Transparency is key for building trust in mentorship."**

**– Sarah Johnson**

**"Quantifiable impact helps us measure our success effectively."**

**– Linda Smith**

**"Regulatory awareness ensures we are compliant and informed."**

**– Amanda Lee**

# Driving Positive Change

Empowering women in technology to create a **more inclusive** and equitable landscape in South Africa

Our initiative aims to **accelerate growth** and increase representation by building a strong community, ultimately setting a new standard for mentorship in the tech industry.
